

Call for Papers: Fluid Power Systems and Technology (FPST)

OBJECTIVES

The Fluid Power Systems and Technology (FPST) Division invites submissions of papers in the general area of fluid power.

Areas of interest include: design, performance testing, analysis, modeling, sensing, control and diagnostics of hydraulic/ pneumatic systems and components. Novel applications of fluid power to aerospace, robotics, shipboard systems, heavy machinery, entertainment, and manufacturing etc. are also of interests. Proposals for panel sessions, poster sessions, or "special topic sessions" are also welcome.

LIST OF TOPICAL AREAS

Abstracts are invited for presentation and publication on the following key topics for all sessions. Topics of interest include but are not limited to:

- 1) Fluid Power Components
- 2) Fluid Power Control and Diagnostics
- 3) Fluid Power Systems and Integration
- 4) General

ABSTRACTS

Authors should submit a 400-word text-only abstract to:
<http://www.asmeconferences.org/Congress05>

ABSTRACT DUE DATE: March 7, 2005

Other important dates:

March 31, 2005:	Notification of abstract acceptance
May 31, 2005:	Full paper deadline
July 29, 2005:	Notification of full paper acceptance
August 19, 2005:	Deadline for all final papers and applicable copyright forms (ASME Form 1903)
